RICH, MOIST, ROTTED MANURE — AND HOW IT DOES MAKE THINGS GROW!

The real value and importance of a good rich rotted cow manure in improving the soil is well understood by all experienced gardeners and is a material that requires little description. OUR ROTTED COW MANURE is a natural organic product to which we have added nothing and from which we have taken nothing away. Also, for convenience in use and handling, the material is run through the shredding machine before it is packed for shipment. We receive many enthusiastic letters from pleased customers and a heavy volume of repeat orders from the same people year after year and this speaks volumes for the worth of the product.

You will find our ROTTED COW MANURE excellent for both vegetable and flower gardens, for shrubbery, evergreens, roses, etc. It is an excellent soil conditioner and HOW it does make things grow! We know of no product better to recommend than good rich ROTTED COW MANURE.

Material such as this is practically unobtainable in many communities and much too scarce everywhere. It is none too plentiful even with us and yet we handle immense quantities and ship many carloads each season to a vast host of widely scattered gardeners, as well as to public and private institutions, parks, cemeteries, florists, and others who have need for an excellent product such as this. Here is Nature's best fertilizer and humus for feeding and building up your soil.

ROTTED COW MANURE is practically odorless and may be stored in any shed or outbuilding until required for use. It is advisable to anticipate your requirements if possible and order in advance of actual need for the material. We pride ourselves on our promptness in making shipments but the matter of deliveries is of course entirely in the hands of the R. R. and subject to prevailing conditions over which we have no control.

Following are our current prices for ROTTED COW MANURE—

WOOD VENEER PLANT BANDS

150 for \$1.25

300 for \$2.30

1,500 for \$9.00

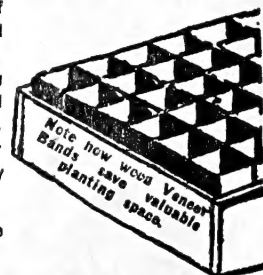

**Insure Better Plants and Earlier Results
No Wilt, No Setback When You Plant Outside**

Get a better, an earlier start with the garden this year, for both flowers and vegetables, by using PLANT BANDS for starting your seedlings indoors. This will insure better root systems; no wilt, no setback when you transplant out in the open. The plants never know they have been shifted for the Band opens on one side; the earth ball comes away intact to go into the ground without shock to the root system; consequently, no shock or setback in transplanting. The use of these PLANT BANDS is very simple. First soak them in water a few minutes to make the wood pliable; then fold and interlock at the side. Then place the Bands, in rows, in regular seed flats, or in shallow boxes or pans; fill the Bands with your potting soil and put in your seed or seedling plants for further development and growth. Use PLANT BANDS and have a better garden and greater gardening results and satisfaction. The Bands, when folded for use, measure 2x2x2 1/2 inches. They cost so little too that you can ill afford to do without them. We send 150 Wood Veneer PLANT BANDS for only \$1.25 or, better yet, 300 for \$2.30 prepaid. Carton of 1500 Bands by

express (not prepaid), \$9.00. Order a liberal supply of Wood Veneer PLANT BANDS TODAY.

CUT WORM DAMAGE—A Plant Band, folded and shoved down half way into the soil about the stems of plants susceptible to such damage, will be a barrier to these pests and provide cheap insurance.

TERMS AND CONDITIONS OF SALE—All shipments are f.o.b. shipping point. We prepay shipping charges only where specifically advertised as "prepaid." Cash with the Order. No C.O.D.'s. No charge accounts. (Insecticides and Fungicides by Express Only).

OUR SPECIAL LAWN MANURE

Because of its high nitrogen content our processed poultry litter is an excellent material for top dressing your lawn. Dry, finely ground, it spreads easily and will not burn the grass. It is effective, quick acting, sinks right down out of sight to the grass roots and goes to work. A little goes a long way as a 50-lb. bag will top dress 750 sq. ft. of lawn. Analysis similar to that of sheep manure; costs you less. Also an excellent fertilizer for small fruits and for leafy garden crops such as cabbage, kale, spinach, lettuce, etc.

50-lb Bag \$1.75

20 Bags (½ Ton) \$27.50

2 Bags For \$3.25

SCREENED TOP SOIL

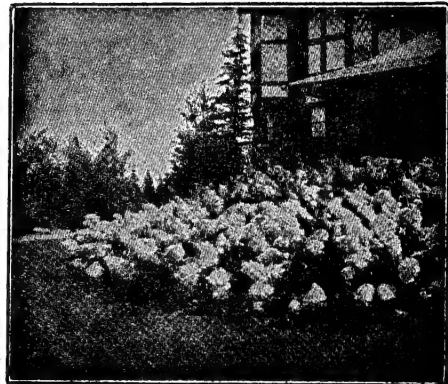

This material is found useful in a number of ways; for patching up bad spots in the lawn and for levelling off irregular places. Used in combination with Hyper-Humus and Rotted Cow Manure (1/3 of each), it makes a good potting soil, soil for greenhouse benches, porch and window boxes, and will be found to have numerous uses that readily suggest themselves.

Our SCREENED TOP SOIL is removed from the top of the field and stacked up by the bulldozer, then run through a ¼-inch mesh screen before bagging to remove stones, twigs, and other foreign matter and to provide a nice friable material. We find that our customers like our SCREENED TOP SOIL.

100-lb. Bag \$1.10

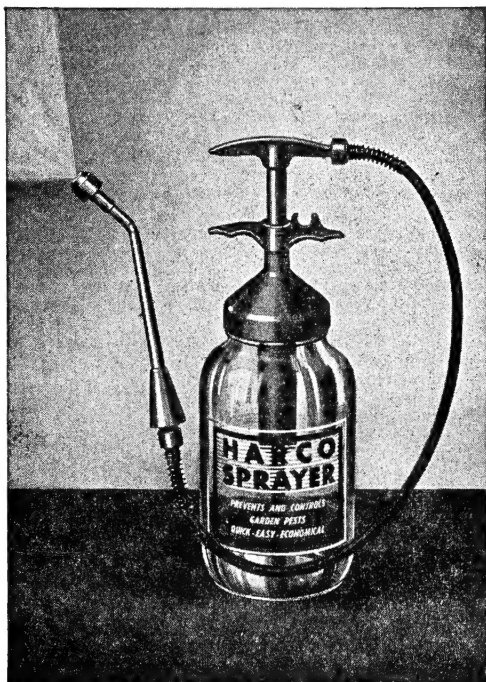

3 Bags for \$3.00

20 Bags (1 Ton) \$18.00

HAYES' "HAND-D" SPRAYER

WE HAVE DISCONTINUED THE "HARCO"
(illustrated here)

This new improved Sprayer is almost identical in appearance to the "HARCO" (illustrated) sold by us heretofore. Instead of plastic fittings the "Hand-D" has all metal parts which insures practically a lifetime of use with proper care. Also, instead of a single spray jet, it now comes with three: one for all purpose spraying; one for fly spray; one for Bordeaux Mixture and Arsenate of Lead Spraying. The efficient, handy-to-use "Hand-D" means quick and certain death to insect and fungus pests. Its conveniently long extension rod quickly and easily sends a penetrating spray right where it will do the most good. Capacity one quart. Easily taken apart without tools for cleaning. Get a Hayes' "Hand-D" Sprayer and increase greatly that "Happy Gardening" experience we all desire. So very inexpensive too; you simply cannot afford to be without a "Hand-D" about the place.

ONLY \$2.95

HOT KAPS Help You Have SURE CROPS Weeks Earlier

EVERY PLANT PROTECTED BY A MINIATURE GREENHOUSE

HOT KAPS are sturdy little hothouses, each one protecting an individual plant from destructive frosts, storms, and insects in the garden. Gives your garden an earlier start. University tests show an increase in yield of 18 to 51 percent. Their use promotes bigger vegetables and fruits with a three weeks earlier maturity. HOT KAPS are very easy to set; one man can set 2,000 in a day's work. HOT KAPS eliminates the danger of weather and insect damage. These patented wax paper cones are used by thousands of commercial growers who are getting premium prices for earlier products who are making bigger profits each year by using HOT KAPS. Therefore, for maximum results, protect your tender seedlings from early killing frosts, storms, sand, fog, birds, and insects with HOT KAPS. Do as successful market gardeners do.

Use HOT KAPS this year.

100 HOT KAPS Only \$2.25

NOTE:—Each 100 HOT KAPS is packed in a strong carton, complete with full and complete instructions for use. A Setting Tool is also included free of charge in each carton.

RAIN can't harm

FROST can't hurt

INSECTS can't touch

Here Are the Facts About That Wonderful New Insecticide

DDT

During World War II the newspapers were full of the wonder workings of the new DDT. It was then unobtainable by the general public but is now in adequate supply and in great demand. The right type of DDT for a specific purpose will accomplish wonders. We therefore offer DDT this season in four forms for the various uses as follows: DDT 5% Dust; DDT 10% Dust; Wettable DDT 25% and DDT 4% Liquid Spray.

While they do not kill instantly as does rotenone, pyrethrum and nicotine, all of which have important uses still; it works differently, affecting the nervous system and, where the surface has been properly treated, the house fly, for instance, simply walking over it, will die in from 10 minutes to 3 hours afterward. Its effect is long lasting and two sprayings a year, spring and fall, should take care of all the flies in a room and ones that enter afterward.

Flies and Mosquitoes. Indoors use DDT 4% Liquid Spray. Do not fill the rooms with mist but get it on where most effective; on sidewalls, ceilings, doors, light fixtures, etc. Outdoors on porches and ceilings, on barn walls, ceilings, stalls, chicken houses, kennels, etc., spray with Wettable DDT 25%. Make a spray by mixing 2 tablespoonfuls with one gal. water. Cover feed troughs, feed, hay, etc., before spraying to keep the animals from licking or eating the spray residue.

Dog Fleas and Ticks. Use $\frac{1}{4}$ teaspoonful of DDT 10% Dust for the average size animal as often as necessary. It will give great relief. Don't use on cats which lick themselves, and never use liquid oil base sprays on animals.

Bed Bugs, Cockroaches, Clothes Moth. Dust or spray mattresses, pillows, springs, all bed joints and crevices with DDT 10% Dust or 4% Liquid Spray when bedbugs are present. This should be effective for six months or more. Do not use on sheets, blankets or pillow slips in use. When cockroaches are present use DDT 10% Dust along baseboards, under sinks and in dark damp corners. Spray walls and ceilings of clothes closets, inside of chests, etc., with 4% Liquid Spray for clothes moth.

Jap. Beetles, Potato Bugs, etc. Use DDT 5% Dust and repeat in about three weeks. Do not use on flowers or blossoms where it may affect the bees and avoid use on parts of vegetables to be eaten and, in using any of the DDT preparations, do not unduly inhale either dust or spray and wash off any DDT liquid if spilled on the skin. All-in-all, here is the most effective and longest lasting insecticide yet discovered. You can greatly benefit by its intelligent use. Following are the various types offered and prices for these DDT products.

DDT 5% Dust 5 lbs. \$1.25
DDT 10% Dust 1 lb. 75c — 5 lbs. \$3.00

Wettable DDT 25% 1 lb. \$1.10 — 5 lbs. \$5.00
DDT 4% Liquid Spray 1 qt. 75c — 1 gal. \$1.50

Ferto-Pots

Plant "EATS"

Pot

Two sizes:

#3

100, \$3.25

250, \$5.75

FERTO-POTS are made of a rich manure mixture by automatic pot machines and kiln dried. No wilt; no setback; quicker, better results; larger profits if seeds, plants and cuttings are first started in FERTO-POTS. In transplanting outdoors pot and all goes right into the ground. Pots soften up in the moist soil and places the plant food where it is quickly available to the roots of the growing plant. FERTO-POTS are a boon to professional grower and home gardener alike.

An easy way to start tomatoes, melons, etc., is to plant several seeds to the pot and later thin to the strongest plant. If you buy your plants, first, put them in FERTO-POTS, then plant pot and all in the garden. For roses, perennials, shrubs, etc., break up 1 to 4 pots (according to size of plants) and bury the pieces in the soil under the roots. For flowering plants to remain in clay pots use FERTO-POTS as pot liners. These pots are offered in two sizes and shipped by express.

#2 $\frac{1}{2}$ — 100 for \$2.75

250 for \$5.00

#3 — 100 for \$3.25

250 for \$5.75

FERTO-POTS have taken the garden world by storm. Millions already sold. Order a supply today and enjoy a thrilling new garden experience.

TOBACCO DUST

In wide demand for use on golf greens and fine lawns both as a stimulating fertilizer and to drive out insects, worms, snails, etc. Applications should be made evenly and thickly enough to show a brown color on the grass and then washed in with the hose. Also use this material as a dust to rid the soft growth of plants of aphids or lice. For this purpose it should be thickly applied, at intervals, early in the morning while the dew is still on.

In setting out such plants as strawberries, asters, and other plants susceptible to attack by root lice, mix a handful of Tobacco Dust with the soil where each plant is to be set out. Tobacco Dust is a fine thing to know about and to use.

25-lb. Bag \$1.75 — 50-lbs. For \$3.00

TRIOGEN — Famous All Around Spray for Roses

This well known spraying material has a three-fold purpose. It acts on Roses as an insecticide, a fungicide, and as a plant stimulant tending to promote luxuriant blooms. TRIOGEN as a spray is well and favorably known to professional growers and has the endorsement of many well known rose culture authorities. It is economical to use; a labor saver, and it does produce results of which the lover of finest roses may well be proud.

Trial Kit \$1.50

(Insecticides and Fungicides by Express Only)

CLARENCE B. FARGO,

FRENCHTOWN, N. J.

Hyper-Humus

THE GREAT PEAT-HUMUS Soil Builder and Conditioner

Maintains its value in the soil for a period of up to ten years making its use a capital investment rather than an expense. Fine and soft in texture; rich and black as midnight; free of weed seeds; easy and pleasant to handle.

Trees, Shrubby and Evergreens—In filling up the planting holes use half good top soil and half Hyper-Humus well mixed.

Vegetables—Use Hyper-Humus liberally in the rows and work it into the soil before sowing seeds or setting out plants.

Flower Beds—Use 1-lb. Hyper-Humus for each sq. ft. of 3-in. depth, i.e., if the bed is dug a foot deep use 4 lbs. to each sq. ft. of top surface before digging.

Old and New Lawns—Hyper-Humus should be used in same proportion as for flower beds in making a new lawn. In renovating an old lawn apply 1-lb. per sq. ft. and work it in with a stiff fibre broom or bamboo rake, then sow needed grass seed, roll or firm down and water with a fine spray.

Potting Soil—Use 1/3 each of good top soil, fine well rotted cow manure and Hyper-Humus well mixed. This mixture will be found excellent also for hotbeds, cold frames and seed flats and will result in fine root clusters for the growing plants.

You Want Best Results—Then use Hyper-Humus liberally in your planting scheme for the highest possible degree of success and satisfaction.

100-lb. Bag \$2.00

2 Bags \$3.75 — 20 Bags \$29.50

DRIED BLOOD MANURE

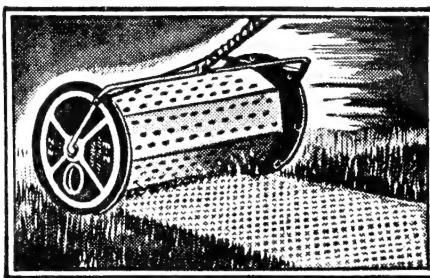

A very rich, stimulating, quick acting all animal fertilizer. Used as a top dressing for roses, chrysanthemums, potted plants, etc., it has high value; also for mid-season feeding in the garden. It analyzes very high in nitrogen and about 15% ammonia. It is so rich that a little of it goes a long way. Use 10 lbs. to 1,000 sq. ft. of surface. 10-lb. Bag \$1.25.

WOODEN PLANT LABELS

Flat wooden labels for marking pot and garden plants. We offer these in two different sizes; pointed ends. 4-inch 100 for 50c; 5-inch 100 for 60c; 6-inch 100 for 65c.

Also 3 1/2 inch Labels, wired for labeling dahlias, shrubs, trees, and similar plants where it is desired to attach the label directly to the plant, 100 for 60c. (Label prices all prepaid.)

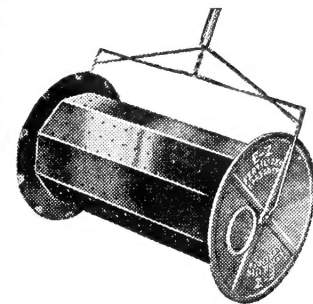

E-Z Fertilizer & Lawn Seed Spreader

It's fun to seed and fertilize the lawn the new "E-Z" way. Saves both seed and fertilizer by applying it evenly and without waste. Such savings soon pay back the small cost of the Spreader in having a good job well and quickly done. You simply guide the Spreader over the lawn just as you

would operate a vacuum cleaner in the home and your lawn is covered quickly, scientifically and uniformly. Dependable construction assures long life for your E-Z Spreader.

COSTS ONLY \$1.25

D-X GARDEN SPRAYS

A regular spraying schedule in the vegetable, fruit, and flower garden is an absolute necessity if satisfactory result of effort is to be attained. These two well known Sprays will be found to meet the situation and so are recommended to the attention of our gardening friends.

D-X ROTENONE

For spraying vegetables every ten days to two weeks during the insect season. Rate of use; three teaspoonfuls to one gal. of water. This spray is limited to food crops only.

1/2 Pint \$1.25

D-X NICOTINE

For insect control in the flower garden. It gives very effective results and is especially recommended as a "MUST" for your Roses. Rate of use: three teaspoonfuls to one gal. of water. (For Japanese Beetle Control use an extra half teaspoonful and add two rounded teaspoonfuls of arsenate of lead.)

1/2 Pint \$1.40

MURIATE OF POTASH

An essential element for the best development of root crops as it is about 50% potash. For use on garden root crops apply 6 lbs. to 1,000 sq. ft. of surface.

One part muriate of potash to four parts Bone Meal makes an excellent top dressing for dahlias, using a handful of the mixture to each plant, in July or August, and mixing it into the topsoil around the plant.

10 lb. Bag \$1.25

100 Ft. **EASY-ON** **EASY-OFF** **\$1.69**
ROLL

WEATHERSTRIP

A soft, pliable, plastic material that goes on in a jiffy. No bother; no tools required; any one can apply it. Goes on either outdoors or inside. Does not shrink, chip or crack. Keeps warm air in, cold air out. **SAVES FUEL.** Removable (after winter need is past) as easily as it goes on. Also useful for stopping holes or cracks around sinks, under baseboards, anywhere. So inexpensive, too. 100 feet (enough for six windows) only \$1.69 prepaid.

**AGENTS and DEALERS
WANTED**

Here is a profitable item for you.

TRANSPLOANTONE

Reg. U. S. Pat. Off.

A hormone vitamin powder for stimulating root growth of transplanted seedlings. Earlier maturity and larger crops of tomatoes, cabbage, celery, sweet potatoes, etc., may be had if TRANSPLOANTONE is used at time of transplanting. Seed potatoes soaked for an hour in a TRANSPLOANTONE solution have produced 15 to 55 more bushels per acre. Useful also in planting trees and shrubs for better and quicker root growth and development. Newly set out plants watered with TRANSPLOANTONE solution, a level teaspoonful to ten gals. of water, will have the root growth of the plants tremendously increased. TRANSPLOANTONE is a reliable, nationally known product of one of the foremost manufacturers.

3-Oz. \$1.00
(Postpaid \$1.25)

GROUND TOBACCO STEMS

**Works Wonders As
A Mulching Material**

Here is absolutely the very best mulching material of which we have any knowledge. It is one that pleases and delights our gardening friends without end. Not only is it an excellent mulch but it also has fertilizing and insecticide values as well and a multiplicity of important uses. If you haven't yet used it we hope you will give it a tryout. Here are some of the things it does for you. 1. Keeps down weeds. 2. That makes the back-breaking labor of wielding the hoe largely unnecessary. 3. It keeps the soil cool and moist even in the hot dry days of midsummer. 4. As a winter mulch it prevents alternate freezing and thawing which is the cause of the loss of many valuable plants. 5. It discourages insect pests, worms, snails, moles, etc. 6. Conserves moisture in the soil by retarding evaporation. 7. It does away with that stark bare earth appearance and gives beds and borders a neat and attractive tobacco-brown blanket. 8. The succeeding season when dug into the soil before applying a new mulch it will add a certain humus and fertilizer value to the soil. 9. Where chemical fertilizers are used if it is mixed with equal quantity of ground tobacco stems it increases the value of that fertilizer as it supplies organic potash and nitrogen. Here are nine important uses briefly outlined for Ground Tobacco Stems. Surely some of these will fit in nicely with your gardening plans.

50-lb. Bag \$2.00—2 Bags For \$3.75

ADCO Turns Garden Waste Into Valuable Fertilizer

This well known and strongly advertised product is in large demand for turning garden and kitchen wastes into valuable humus and fertilizer. Leaves, instead of being burned, are thus utilized to excellent advantage, as well as lawn clippings, weeds pulled from the garden, decaying and spoiled fruits and vegetables and other waste material the value of which would otherwise be completely lost.

By simply following the directions that come in every bag of ADCO and spreading a small proportion of the material, a clean inoffensive powder, over these waste products from the lawn, garden, and kitchen they are speedily converted into rich plant food. Its use is so easy and simple a proposition that anyone can do it and so very inexpensive too. A 25-lb. bag of ADCO will make about a half ton of splendid fertilizing material. Use ADCO and utilize the full value of this waste material so easy to transform into valuable humus and fertilizer.

A 25-lb. Bag for \$2.25

COW MANURE BRICKS

The quick, clean, easy way to prepare a quick-acting liquid manure. Here is a new idea that has surprised and delighted many of our customers. Real bricks made of rich rotted cow manure; pressed, then kiln dried.

Soak a piece broken from one of these bricks in a bucket of water until the brick has softened up and the liquid the color of weak tea then apply as needed to potted house plants or alongside the garden rows to give the plants a rich stimulating drink.

In planting roses, shrubs, etc., a dry piece of crushed brick may be buried in the hole underneath the roots of the plant with soil in between the manure and the roots where it will become quickly available to the plant as the manure softens up in the moist ground.

The liquid manure described above is also useful as a starter solution in setting out young plants. Just apply a cupful of the solution to the soil where the plant is to go in and then note the difference.

5 Bricks \$1.10 — 10 For \$2.00

Shipping weight, 5 Bricks, 6 lbs. Not Prepaid.

ALUMINUM SULPHATE

This material is useful for creating an acid soil condition for such plants as require that the soil shall be acid. This includes such plants as rhododendrons, azaleas, laurel, blueberries, etc., plants which do not thrive in soil of an alkaline nature. It is also used in the soil to change the color of pink hydrangea flowers to blue.

10-lb. Bag \$1.25

2.4-D Weed Killer

This new and effective wartime discovery controls and kills a great variety of noxious weeds by penetrating to the roots of the plants. **NON-POISONOUS.**

Knocks dandelions, bind weed, ragweed, goldenrod, honeysuckle, poison ivy and others of a broad leaf nature without harm to lawn grass. An easy and effective method to have a weed-free lawn or pasture at very small expenditure of time, effort or money. A ¼-lb. of 2.4-D Weed Killer, water added, make 20 gals. of spray or enough to cover approximately 10,000 sq. ft.

¼-lb. \$1.10 — 1-lb. \$4.00

(Can go by parcel post)

air-wick

Seed-Less-Set

Grow Tomatoes Earlier Grow Seedless Tomatoes

gans of the blossoms. BLOSSOMS STAY ON. Those who have set out pot-grown plants with blossoms on them in May have often found them to produce no ripened fruits until August and yet it is normal for tomatoes to mature in 40 to 50 days. Blossoms sprayed with Seed-Less-Set do not fall off as is the habit with early blossoms on untreated plants. Its use will therefore put you in line to have ripened tomatoes long ahead of your neighbors. SEEDLESS TOMATOES. Just picture your favorite variety without seeds. Seed-Less-Set does it. Firmer flesh; better flavor too. And, surprisingly, you can have more perfectly shaped large tomatoes; practically no crippled runts. Use Seed-Less-Set this year and enjoy a unique and pleasing experience. Use Seed-Less-Set also on your cucumbers, melons, squashes, peppers, pears, etc., on which scientific work also has been done. The makers of Seed-Less-Set guarantee satisfaction. A 1/2 pint bottle of Seed-Less-Set will treat hundreds of plants.

1/2 Pint Bottle \$1.00

All you have to do is to spray the blossoms, not the plant, EARLIER TOMATOES. This newly discovered plant hormone makes the tomatoes develop more quickly. The hormone fertilizes and stimulates the fruit producing organs.

Bamboo Plant Stakes

These are a REAL garden necessity. Tough, wiry, long-lasting. Come in 4-ft. lengths; dyed green. (Shipped by parcel post prepaid to points within the first three postal zones; otherwise by express, charges collect.)

100 for \$2.50

Hardwood Garden Stakes

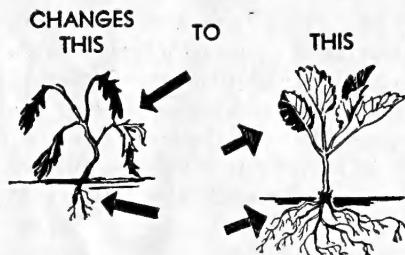

For the heavier plants such as tomatoes, dahlias, etc. These are strong sturdy, square, long-lasting; made of hardwood and pointed at one end. Plain, not painted. Shipped by express direct from mill in Eastern Ohio.

4-ft. Lengths — 50 for \$3.98

ROOTONE

Reg. U. S. Pat. Off.

The famous, nationally advertised, plant hormone powder acting as a root forming stimulant when applied to cuttings, seeds, or bulbs. The illustration below shows the difference between treated and untreated cuttings. The powder gets its root forming activity from the synthetic hormones or growth substances which it contains. When cuttings are dipped in the dust, and seeds or bulbs dusted with ROOTONE, germination is quicker and root growth faster and heavier. This means stronger, healthier plants. Just a little ROOTONE goes a long way. Its effect is well and favorably known by professional growers everywhere.

2-Oz. Jar \$1.00

TWIST-EMS

The famous "invisible," (green,) Plant Ties are back again after having been a war casualty and knowing gardeners will greet them again with joy. Just a twist of the wrist and they're on. Far superior to any other plant tie; they sell by the millions. 8-in. length.

Bundle of 250 for 50c

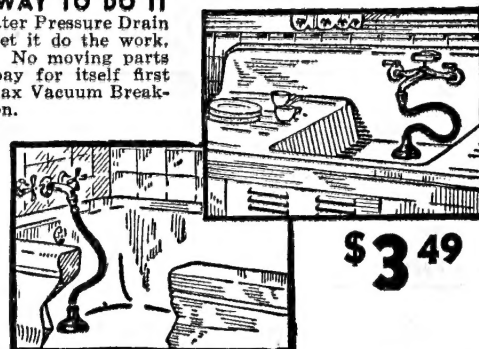

Blast Out Clogged Drains

HERE IS THE EASY WAY TO DO IT
